Research Interests

My research interest lies in generating synthetic data that faithfully captures the real world, thereby contributing to the training of diverse models. I am interested in the full pipeline of this process from data generation to evaluation and application with a particular focus on VLMs, where I study methods for constructing synthetic data applicable across diverse multimodal models. Beyond this, I am also interested in various data-driven approaches and AI safety.

Education

- | | |
|--|---------------------|
| B.S., Artificial Intelligence, Kookmin University <ul style="list-style-type: none">Department of Software | Mar. 2024 - Present |
| B.S., AI Bigdata & Management, Kookmin University <ul style="list-style-type: none">Department of Business Administration | Mar. 2020 - Present |

Research Experience

- | | |
|--|-----------------------|
| Undergraduate Research Intern, SEOULTECH <ul style="list-style-type: none">BIGBASE Lab (Advisor: Hyuk-Yoon Kwon, Ph.D.)Conducted research measuring political bias present in LLM pretraining corpora. | Jul. 2025 – Mar. 2026 |
|--|-----------------------|

Publications

From Data to Model in Bias : A Statistical Analysis of Political Bias in the C4 Corpus and Its Impact on LLMs
Jaebeom You, **Jaewon Lee**, Sehun Lee, Hyuk-Yoon Kwon
ACM International Conference on Web Search and Data Mining (WSDM), 2026

Patents

Method for Statistical Verification of Political Bias in Web Corpora and Analysis of Data-to-Model Bias Transfer
Jaebeom You, **Jaewon Lee**, Sehun Lee, Hyuk-Yoon Kwon

Honors and Awards

- | | |
|--|-----------|
| Encouragement Award, Youth Data Analysis & Utilization Contest <ul style="list-style-type: none">Korea Youth Activity Promotion InstituteQuantified after-school childcare gaps and proposed cluster-based care programs | Dec. 2024 |
| Grand Prize, 2nd Kookmin University AI Big Data Analysis Competition <ul style="list-style-type: none">Kookmin UniversityTrade Volume Forecasting for Five Major Industrial Products | Nov. 2024 |

Certifications

- | | |
|--|-----------|
| TEPS Test of English Proficiency developed by Seoul National University(375pts) | Apr. 2026 |
| SQLD SQL Developer, Korea Data Agency | Jun. 2025 |
| ADsP Advanced Data Analytics Semi-Professional, Korea Data Agency | Sep. 2023 |

Skills

Programming Languages | Python, SQL, Java, LaTeX
Frameworks | Pytorch, Tensorflow, Transformers, Langgraph, Scikit-learn, Streamlit
Tools & DevOps | Docker, Git, Linux, Wandb, TensorBoard
Visualization Tools | Tableau, Figma
